(1754-1838) TALLEYRAND DE PERIGORD

Charles Maurice, Prince of Benevento

French diplomatist and statesman. Born in Paris. Having been educated for the Church, he was made bishop of Autun (1789). On being excommunicated by the pope some time later he severed connections with the Church and in 1797 was appointed minister of foreign affairs. When Bonaparte became Emperor,

Talleyrand who had upheld his ambitions  
project became grand Chamberlain and  
Duke of Benvento. After the Peace of  
Tilsit (1807) he broke off relations

with the empire and became by degrees  
leader of the opposition. He formed

Napoleon's disposition and in the

return of Louis XVIII, became his

minister and was made ambassador

to the Congress of Vienna. Talleyrand

committed his greatest crime in bringing  
about the death of the Duc d'Angoulême

Portugal refused to join the  
Continental system.

Portugal was seized by JUN OT.  
The Royal family fled to Brazil.

1807

(1765-1815) Robert FULTON

Noted American Engineer.

Born at Little Britain, Pa. In 1787 he went to London, where he studied painting, but soon decided to devote his time wholly to mechanics, and became interested in steam navigation; while in Paris (1796-1803) France he constructed a submarine vessel.

A small steamboat made by him in

1803 was entirely successful.  
Returning to New York he launched  
the CLEARMOOT (1807) which made  
regular trips between Albany and  
New York at the average speed of  
5 miles/hr. Fulton was the first  
who was successful at applying  
steam to navigation
